

## About Me

A highly creative professional with a background in blending the art of design with the skill of programming to deliver an immersive, responsive and engaging user experience through efficient web development using the best frontend technologies and frameworks. Passionate about aesthetics and UI design. Looking for an opportunity to utilise my skills to help the company, myself, and grow together.

## EXPERIENCE

### Freelance Frontend Developer

Successfully designed and developed 2 websites improving overall UI and UX, Standardised all output with a new, responsive, mobile-first approach and strategy to an average increase in sales of 9%.

Optimized images and code to increase Time on Page by 30 seconds. Earned for the first time.

## PROJECTS

### ● Personal Portfolio ( IN PROGRESS )

Working on my own portfolio implementing new design principles, and code to improve overall website performance and user experience.

Using React and other frameworks like Framer-motion, Swiper, Emailjs and many more.

## ACHIEVMENTS

- Helped more than 5 clients to improve their website for free and gained industry experience.
- Learned a lot about teamwork, managing time and clients, and leading the team while free-lancing.
